WHY OUR COMPRESSION SUPPORT SOCKS ARE THE MOST BENEFICIAL FOR DOCTORS?

Doctors, Surgeons, O.T Nurses and Hospital Staff are on their feet the whole day and is inevitable. As a result of prolong standing these healthcare professionals suffer from tired and aching legs. This is a common occupational health hazard and can be easily prevented by wearing our compression support socks.

- RELIVES TIRED AND ACHING LEGS
- PREVENTS SWOLLEN ANKLES
- IMPROVES BLOOD CIRCULATION
- REDUCES RISK OF FLIGHT RELATED DVT
- PROVIDES CLINICAL PROVEN COMPRESSION SUPPORT

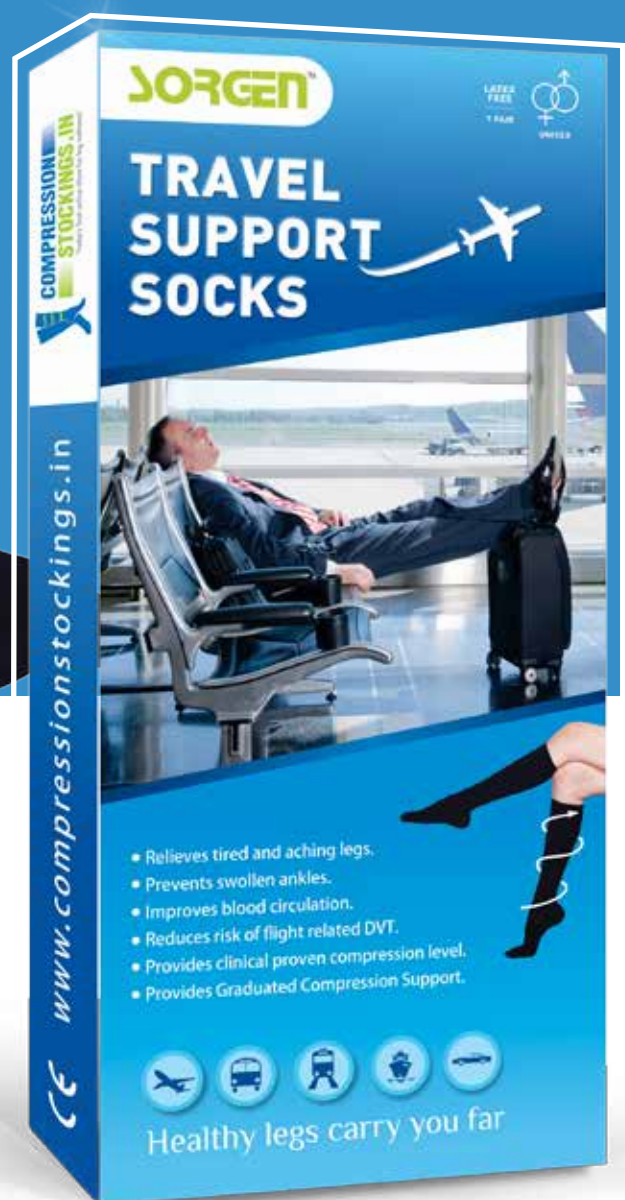

# TRAVEL SUPPORT SOCKS

**JORGEN**<sup>®</sup>

Prolonged sitting may result in slowing of blood flow to the heart, raising pressure in the legs and slowing the circulation. In addition, the low humidity, lowered oxygen levels and insufficient fluid intake can further lead to dehydration. This can lead to pain and fatigue in the legs, swollen ankles and high risk of travel related DVT. Travel Support socks helps to speed up the flow of the blood back to the heart relieving pain, fatigue and swelling and reducing the risk of DVT.

- RELIVES TIRED AND ACHING LEGS
- PREVENTS SWOLLEN ANKLES
- IMPROVES BLOOD CIRCULATION
- REDUCES RISK OF FLIGHT RELATED DVT
- PROVIDES CLINICAL PROVEN COMPRESSION SUPPORT
